

# Want a career that offers job security, good pay and loads of opportunity?

**School Based  
Traineeships  
for Indigenous  
Australians provide  
the chance to learn  
new skills and to get  
an introduction to the  
Australian Upstream  
Oil and Gas Industry.**

The Australian Upstream Oil and Gas industry is growing, and this growth will provide opportunities for motivated young people to complete a Certificate II in Process Plant Operations.

Process Plant Operators in the oil and gas industry monitor and maintain production processes using computer controlled equipment.

The Australian Petroleum Production and Exploration Association (APPEA) is working with its member companies to increase the number of School Based Traineeships available for Indigenous Australians in Year 11 and 12.

If you're looking for an exciting career opportunity you might want to consider the Australian Upstream Oil and Gas industry. There are loads of opportunity for enthusiastic young people to get ahead in one of the country's biggest and most successful industries.

You'll need to finish Year 11 and 12, and complete a Certificate II Program as part of your study, but the rewards are worth it. You could end up working on a major oil and gas processing facility using the latest computer technology and state-of-the-art equipment. There's plenty of scope for travel within the industry and lots of long-term opportunities for advancement.

If you are an Indigenous Australian student and will commence Year 11 studies in 2008, APPEA would like to hear from you. Contact APPEA on 08 9321 9775 or at [perth@appea.com.au](mailto:perth@appea.com.au). **Please quote:** Indigenous SBT.
