

Want a career that combines **CHALLENGE & REWARD?**

In today's booming economy, there's **MORE OPPORTUNITY THAN EVER** to find a career that offers challenge and reward. And it may not be in an area you've considered before.

Australia's Upstream Oil & Gas industry contributes billions of dollars a year towards the state and national economies and is poised on the brink of major expansion and growth.

There are currently opportunities for women of all ages to pursue a career in oil and gas, with specialist training and development programs to help you reach your full potential.

The Australian Petroleum Production and Exploration Association (APPEA) is coordinating a program to encourage the employment of more women in the upstream oil and gas industry in positions such as:

- Process and Production Technicians
- Electrical and Instrumentation Trades
- Mechanical Trades.

If you'd like to learn more or register your interest in the program contact APPEA on 08 9321 9775 or at perth@appea.com.au.
