Why invest in a designer landscape only to spoil it with an unsightly fence?

With Riviera Frameless Glass Fencing you don't have to. Our state-of-the-art frameless glass offers both security and style, and complements any space without compromising the view.

Best of all, frameless glass can be installed in a wider range of situations than a number of other fencing options, with less disruption to surfaces on existing buildings.

Manufactured to the highest Australian standards, Riviera Frameless Glass Fencing is 12mm thick with a polished, chamfered edge that will add style in any application.
